Moorhaven
Welcome to Moorhaven

Our friendly and welcoming home is situated in a quiet residential area of Taunton, within easy reach of local amenities.

We are proud to have a dedicated team of local staff offering personalised care and support, alongside a varied and engaging programme of activities. Our kitchen and housekeeping staff complete the package, providing delicious, freshly cooked meals and a clean, homely environment.

Whether you’re looking to arrange day care, a respite stay or a permanent move into a home, we would love to meet you.
“My dad has been in Moorhaven care home for a few months. As a family we feel so fortunate to have got him a place in such a super care home. The staff are wonderful and nothing is too much trouble. Always friendly and keen to help. They take the residents out on trips on a regular basis.”

Daughter of a resident
Life at Moorhaven

Our team of Activities Co-ordinators are on hand to make sure that residents can continue to enjoy their favourite hobbies, learn new things and regularly get out and about in the local community.

The great thing about having a daily activity programme is that residents can pick and choose whether they want to take part. If there is a particular hobby or interest that isn’t currently being provided, just let the team know and they can arrange this.

Our residents enjoy visits from the local school children. We regularly have visiting entertainment including singing and dancing.

We love animals, including creepy crawlies, and have enjoyed visits from Zoolab with their animal-handling workshops. We’ve also hosted visits from donkeys and alpacas.
Somerset Care has a partnership with award-winning social enterprise, Oomph! Wellness, to provide engaging trips for our homes.

Previous Oomph! trips have been to exciting locations such as ten pin bowling, National Trust homes and racing tracks, as well as more day-to-day spots in the local community.

These trips aim to connect residents to the people and places that matter most to them, so that they can reignite old passions – or discover new ones.
We encourage residents to personalise their rooms to help them feel at home.
Moorhaven is home to our residents, and we encourage people to treat it as such, so we don’t have visiting hours; friends and family are welcome to visit at any time.

Occasionally, a resident may want to bring a pet with them. This may be possible, please discuss this with the Manager.

We provide our residents with a warm and homely environment which is why our staff don’t wear uniforms. It is important that our teams are dressed appropriately and of course we ensure that excellent hygiene practices are in place to prevent infection. They do not however need to look clinical, in fact research evidence confirms that styles and colour of clothing often provide a great conversation starter for people to share stories and memories.
Our care

At Moorhaven we strive to provide the highest standards of residential care, tailored to each individual. The Care Quality Commission (CQC) officially rates our home as GOOD.

We provide a supportive environment with 24 hour care for people who don’t require nursing but may need help with daily activities, or personal care such as washing or dressing. We want to help you to keep your independence and live life to the full, which is why we provide a ‘do with you’ approach to support, rather than ‘do for you’.

Our home has a great relationship with all the local GP surgeries. Whether you arrange to stay with us on a short or longer-term basis, we take care of organising your new registration with your preferred local surgery. If you need to see a Doctor during your time with us, we will arrange for the Doctor to visit you, or if you prefer, we can support and accompany you to attend your appointment at the surgery.

Developing our staff

We have a comprehensive training and induction programme for all our new staff, but it doesn’t end there – we also offer opportunities for continuing development and training to support people to acquire new skills and progress in their careers. By investing in technology, such as electronic medication systems, our staff can efficiently deliver the highest standard of care and support.

Dementia care

Somerset Care has provided care for our residents living with dementia for many years. It is important for us that anyone becoming part of the Moorhaven family feels like they are simply moving home and will make new friends as they do so. We recognise the difficulty this can create for those with dementia – and their loved ones.

For over 20 years we have worked with university partners in Exeter and Bradford to ensure we are part of the latest research, we use the evaluation of that research to influence the care and support we provide.
Day care and respite breaks
We have a limited number of places for people to join us for day care; you will take part in the home’s wide range of activities, with lunch included. Activities can include days out, quizzes, visits from local schoolchildren, crafts and lots more. It is possible to book in for a one-off day or for regular days per week.

We also offer short-term respite breaks. This can be for any duration from a couple of nights to a number of months. This gives family carers a chance to make some time for themselves or to take a holiday, safe in the knowledge that their loved ones are being well cared for. It can also be a way of gently exploring whether a longer term move to a care home might be an option.

End of life care
We provide compassionate end of life care, and work closely with families, GPs and other professionals to ensure that this sensitive time is made as peaceful as possible, supporting family members as well as the resident. This support often includes emotional support; we are here to listen and provide comfort, we can sometimes provide a room for families if required, and refreshments are offered so that you don’t need to leave your relative if you would prefer not to. Please feel free to discuss individual requests with the manager, as wherever possible, we will try to fulfil these.

Since moving to Moorhaven my dad has been much happier both mentally and physically. His general well-being very much improved.

Nutritious meals

Residents at Moorhaven benefit from their own Cook who, alongside a dedicated team, creates homemade nutritious, filling meals.

Our kitchen team can accommodate all dietary requirements. We hold the highest (5 star) food hygiene rating.

Our onsite kitchen provides a varied choice of appetising meals prepared fresh daily. If you’d like something other than what’s on offer, all you need to do is speak to the kitchen team who will do their utmost to prepare something just for you.

We use suppliers that we trust to produce quality ingredients for our residents, including local Somerset produce where possible.

Our menus are seasonal and offer residents a daily choice of meals. We normally have our main meal at lunch and the evening meal is a lighter option.

“There is a healthy programme of social activities covering arts, music and workshops. I often stay to dinner, the food is prepared onsite and is of a high standard with generous helpings.”

Brother of a resident
Our home takes great pleasure in supporting celebrations, including our residents’ birthdays and we welcome any excuse for cake!

“My mother has gone into Moorhaven for respite, it was just for two weeks and what a change I’ve seen in her. She has that sparkle back in her eyes.

I have just asked her if she would like another two weeks here and straight away she said yes, as I’m not lonely here.”

Daughter of a respite resident
Technology

Somerset Care embraces the use of technology to enhance our residents’ lives.

At Moorhaven, Wi-fi access is available in our home. We are passionate about supporting our residents to maintain contact with families and friends, and have a computer and a tablet for our residents to use; we support Skype video calling, social media and email use. We’ve supported people to attend events all over the world via Skype. If you can’t come in to see your relative, we can arrange Skype sessions with them.

We use ‘Our Yesterday’, an electronic system which brings reminiscence to life. It provides weekly printed and interactive newsletters. Staff members use these with residents to promote reminiscence, discuss historical and topical events and participate in quizzes.

We provide ways of watching DVDs, Netflix, YouTube or Catch-up TV. This way of watching media puts our residents in charge of what to watch, when they want to watch it.

Somerset Care employs a full-time Care Technologist whose role is to support our homes, our residents and their families to use and overcome any technology issues they may have. The Care Technologist also provides workshops across Somerset, giving our staff the knowledge they need to support our residents.
Our team

Our staff and volunteers are fully committed to making a difference to the lives of the residents at Moorhaven. Working together as a well-trained, professional team, they provide round the clock care and support.

Our team are at the heart of Moorhaven and we recognise the important role they play in the daily lives of our residents. We nominate employees that go above and beyond in the annual Somerset Care Group Awards and we celebrate the long service of our staff members.

Moorhaven has great links with the local community and we actively encourage volunteers to come and spend time with our residents. Our volunteers work alongside our dedicated care staff, to support residents to enjoy personalised and meaningful activities.

“As a family, we cannot express our gratitude to Moorhaven enough in words. This home offers just that - ‘a home’. The dignity and care the whole team have offered has been beyond belief and Taunton should be proud to have such a wonderful home as Moorhaven.”

Daughter of a resident

Moorhaven is part of the Somerset Care Group, which means that the whole team receive regular training from its own training company Acacia Training and Development.
To find out more

You are welcome to visit Moorhaven at any time and we’ll be happy to show you around the home. We have pleasure in offering you a free taster day for anyone considering joining our home, so that they can experience us for themselves.

Call to book on: 01823 331 524

Choosing a care home can be a very emotional decision, and we understand that. We want to make this process as smooth as possible, and our enquiry team will be happy to answer any questions you may have.

We also have a Guide to Care Homes which we can send you by post or email which may be helpful when considering choosing a care home.

The Care Quality Commission (CQC) inspects all care homes, and the objective reports they produce are a really good starting point to find out more about any care home. We would also advise you to visit any care home that you are considering as first hand experience is the best way to get a feel for a home.

Once you have decided that Moorhaven is the right choice, we will arrange for a member of our management team to visit; they will look at individual care requirements and discuss personal preferences, making sure that we are able to meet these needs.

If you have any questions, or would like to find out more, please contact us and we will be happy to help.
